Rec' July 5th 1877 from Prof Potter
Ans same Day

LITTLE ANNIE MINING COMPANY.

Summit, Rio Grande County, Colorado.

P. J. PETERSON, Superintendent.
C. E. ROBINS, Treasurer.

Thursday 21. June 1877

Prof. W. B. Potter,
Washington University,
St Louis, Mo.

My dear Sir,

I am engaged in making several collections of the Summit flora, and desire a correspondent who on receipt of samples (named) will advise me of their names.

The correspondent will in this way obtain a collection of the Alpine blossoms of the upper Sierra Madre (11000 @ 12.000 feet) — & I will obtain their classification. I have thought of Dr. Engelmann in this connection.

I would be glad not only to receive the information touching nomenclature, but any suggestions relative to gathering & preservation.

We have at last something like Summer, & expect to start three mules on Annie on early next week.

Yours Very Truly. C. E. Robins.
